THE PROTECTION OF THE PRIVACY OF THE INFORMATION WE MAINTAIN IS IMPORTANT TO US.

1. Statement of Our Duties. We are required by law to maintain the privacy of non-public personal information (“NPPI”) and protected health information (“PHI”) (collectively referred herein as “Protected Information”) of the Protected Parties and to provide our clients with this notice of our privacy practices and legal duties. We are required to abide by the terms of this notice. We reserve the right to change the terms of this notice and to adopt any new provisions regarding the Protected Information that we maintain about the Protected Parties. If we revise this notice, we will provide each client or customer with whom there is a current and direct business relationship with a revised notice by mail, electronic mail, telefacsimile, or hand delivery.

2. Statement of the Client’s Rights under HIPAA Privacy and HITECH. As our client or customer, you have a right to know how we may use or disclose the Protected Information we maintain on those Protected Parties with whom there is a direct relationship. In the event that our customer or client is an employer sponsoring a group health plan, we do not have a direct duty to their employees, dependents, former employees or dependents or other eligible participants on the group health plan. Our obligations to not disclose the Protected Health Information we maintain about those individuals may arise due to our contractual obligations as a Business Associate of both the client or customer, as well as to any other third party who is a Covered Entity under the HIPAA Privacy Regulations and as revised by HITECH, but does not create a special legal duty to provide notice to those individuals of their rights through a Notice of Privacy Practices.

Primary Uses and Disclosures of Protected Health Information. We use and disclose protected health information about Protected Parties for payment and health care operations. HIPAA Privacy does not generally “preempt” (or take precedence over) state privacy or other applicable laws that provide individuals greater privacy protections. As a result, to the extent state law applies, the privacy laws of a particular state, or other federal laws, rather than the HIPAA Privacy, might impose a privacy standard under which we will be required to operate. For example, where such laws have been enacted, we will follow more stringent state privacy laws that relate to uses and disclosures of the protected health information concerning HIV or AIDS, mental health, substance abuse/chemical dependency, genetic testing, reproductive rights.

In addition to these state law requirements, we also may use or disclose Protected Information in the following situations:

Payment: We might use and disclose your protected health information for all activities that are included within the definition of “payment” within the HIPAA Privacy regulations. For example, we might use and disclose a Protected Party’s Protected Information to assist with the payment of claims for services provided to that Protected Party by doctors, hospitals, pharmacies and others for services that are covered by a group health plan. We might also use your information to determine your eligibility for benefits, to coordinate benefits, to examine medical necessity, to obtain premiums, and to issue explanations of benefits to the person who subscribes to the health plan in which you participate.

Health Care Operations: We might use and disclose a Protected Party's Protected Information for all activities that are included within the definition of "health care operations" within the HIPAA Privacy regulations. For example, we might use and disclose the Protected Information of a Protected Party to an insurer to determine the premiums for your health plan, to conduct quality assessment and improvement activities, to engage in care coordination or case management, and to manage our business.

Business Associates: In connection with our payment and health care operations activities, we contract with individuals and entities (called "Business Associates") to perform various functions on our behalf or to provide certain types of services. To perform these functions or to provide the services, our business associates will receive, have access to, create, maintain, use, or disclose protected health information, but only after we require the business associates to agree in writing to contract terms designed to appropriately safeguard your information.

Other Covered Entities: In addition, we might use or disclose your protected health information to assist health care providers in connection with their treatment or payment activities, or to assist other covered entities in connection with certain of their health care operations. For example, we might disclose a Protected Party's Protected Information to a health care provider when needed by the provider to render treatment to that party, and we might disclose protected health information to another covered entity to conduct health care operations related to billing, claims payment or enrollment.

For all other uses and disclosures, we first must obtain your permission.
